

## Vinga App

1. Register/login session
2. Main menu
3. Singapore Institute session

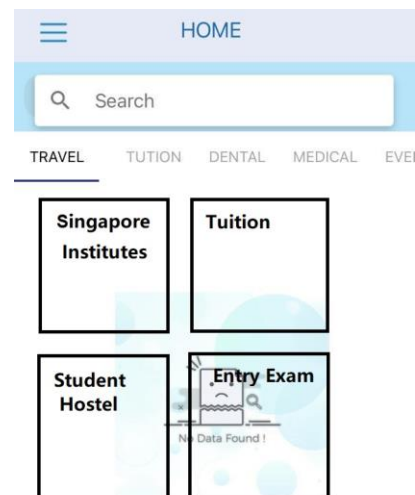

### ➤ Register/Login part

1. The terms and conditions once the user signs up will have a check box - I agree for the above and then accept button to proceed after the user checks the box. The font size to be reduced.
2. Once they register remove the admin approval process for parents / students –
3. Once they register, remove the part of 'passport upload.'
4. Password: at least 8 words, including small letter, number, and symbol.
5. Every agent should have a code (e.g V001, V002...), Once student register, should key in this code. So it can help us to check students under which agent.

### ➤ Main Menu

1. In the Home screen, please put 7 main sessions
  - 1) Singapore Institutes
  - 2) Tuition
  - 3) Student Hostel
  - 4) Entry Exam
  - 5) Medical
  - 6) Travel
  - 7) Events in SG

Please also give some design of each session

- Each session
- 1. Singapore Institutes

1. Process: Singapore institutes – levels of institute – schools name – course name – course details

\*Levels of institute: Diploma ->major->schools name->course name -> course details

\* Course details should have course name, introduction (Introduction, duration, brochure), entry requirements, commencement date, Program fee (application fee, course fee), Documents List

2. Online form to be added for application as well - with the authorized to the Vinga company and digital signage

3. This can be viewed at the back end also by the admin when the student fills the online form

Interface sample:

Course Full Name.	
Program Introduction	Once tap, it will show Introduction, Duration, Brochure (Can view & download)
Entry Requirements	Once tap, it will show entry requirement
Commencement Date	Once tap, it will show commencement Date
Program Fee	Once tap, it will show Application Fee, Course Fee
Documents Checklist	Once tap, it will show Document Checklist

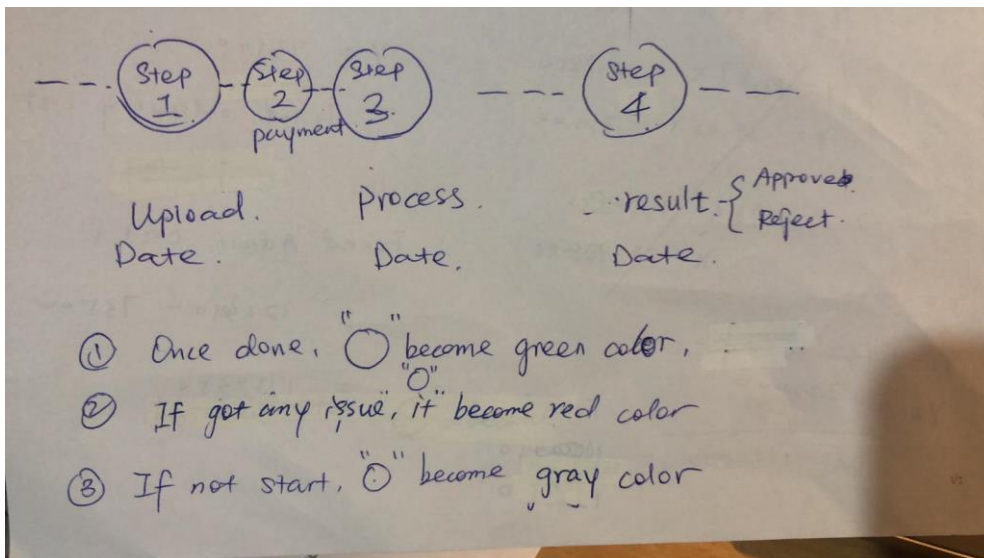

Apply Now

Upload Docs

Make payment

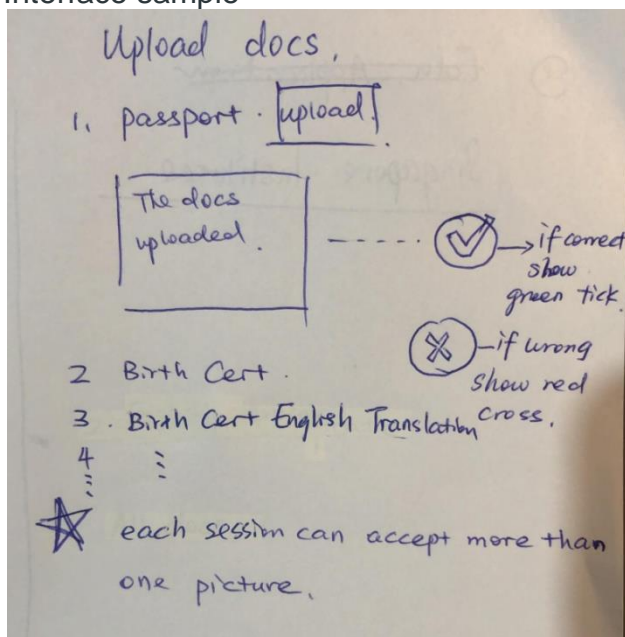

Page 16 of 22

4. Should have process update bar  
Interface Sample:

5. Once upload docs: (If uploaded docs are wrong, need to show the reason why it is fail to upload, e.g picture too big, not correct format...)

Interface sample

6. If applicant upload docs, they are only allowed to make payment within 24 hours, if more than 24 hours, they need to upload again.
7. School brochures should be added at the back end admin panel and student/parent can download the same in the front end.
8. Institute Management and Services details can be available at the default home Page screen – Home page and default home page all need to be shown, but the contents are different.
